

**REPORT FOR THE MACEDONIAN BIRD RINGING SCHEME (MBRS)
2013**

Since its establishing in 1995, MBRS never got some support for strengthening its technical but also personal capacities. We have asked several EURING representatives but we never got any positive result and MBRS is still far from some sustainable solution. Due to economical crisis in Europe, but also in Macdonia, this problem become even worse and possibilities for support very scarce. In the meantime MBRS succeed to establish its bird ringing centre but seems without some financial support it is not possible the centre normally to exist for the function of MBRS aims.

We hope that EURING is enough experienced and have faced with similar cases and could find some way out and help to MBRS.

Best regards,
Branko Micevski
President of MBRS and Bird Protection Macedonia
